Street Numbers To Be Put On Houses In This City Soon

Homes in Elba will soon have street numbers as result of action by City Council Monday, the numbering to be done in cooperation with the Post Office.

Mayor Doner Roberts submitted an agreement with the Post Office Department by which the city would be mapped by the Post Office and numbers assigned to each house at a cost to the city of only \$140.

Agreement had been made with the Elba Jaycees to sell numerals to be put on the houses, he said.

The plan was adopted unanimously with Mayor Roberts and Councilmen Murphree, Smith, Taylor, Ziegler and Lindsey present.

Lack of house numbers has been a serious handicap to mail carriers and Postmaster Robert Cooper said the difficulty is growing. Oftentimes patrons fail to receive their mail, and there are constant delays, because incoming letters bear no numbers because residents have no numbers to give correspondents.

HITLER'S TACTICS...

An example of the clever propaganda used to secure federal aid for parochial schools is contained in a sheaf of papers recently received by mail by The Elba Clipper and, presumably, every other newspaper in the United States.

Sponsored by a group with the innocuous name of Citizens for Educational Freedom, it contains such slogans as: "A Fair Share For Every Child," "Parents' Civil Rights in Education," and then there is a clip-sheet with such headlines as: "Citizens Need to Preserve Freedom of Education," and "Group Seeks Freedom of Choice in Education."

And then this statement: "If your Congressmen discriminate against your children, it is not because the Constitution requires it but because you have not performed your political duties. You have not joined Citizens for Educational Freedom to defend the civil rights of your children. You have not written letters to your Congressmen protesting discrimination against your children. You have accepted the status of a second-class citizen."

Those of us old enough to have read newspaper accounts of the day-to-day rise of Hitler and Mussolini to power will recall that, in every speech, they pledged their efforts to peace, and said their programs represented true democracy.

So when a group gets together and adopts the name of Citizens for Educational Freedom, it is simply using the old game of dictators since the world began.

The Gallup Poll of Public Opinion shows that there is a higher majority of the public opposed to public aid for parochial schools now than 10 years ago because the issue is being discussed more frankly now than it was then.

Naturally, the Citizens for Educational Freedom does not quote the noted educator James Bryant Conant's statement that "private" schools are creating a divisive influence in this great land of ours.

Anyone who has lived in an area where a high percentage of students attend parochial schools knows full well how they tend to set neighbor against neighbor, not only in their social affairs, but in business, professional and political life as well.

If the true facts about parochial schools were fully explored there would certainly be no tax money voted to their continued creation of a divisive influence in our country. They would be closed by law.

FAILS TEST...

A man must be a politician before he can become a statesman.

But few politicians are statesmen.
John Fitzgerald Kennedy's rise to the Presidency was a marvel of politics.

His handling of the Cuban crisis was a marvelous failure in statesmanship.

It is one thing to be a politician in Boston. It is quite another thing to be at the helm of the most powerful nation in the world.

SOIL CONSERVATION NEWS

BY T. C. SELF

Soil Stewardship Week, May 7-14, is an important time for people throughout America, both rural and urban, for it is a time for emphasizing the importance of soil in the lives of people everywhere.

Soil Stewardship Week is a time for renewing awareness of man's responsibility to the land. It is not a reminder to the farmer or rancher alone, but a reminder to everyone who would put a spade to the soil.

The contractor with his new housing development, the engineer with his highway, the lumberman with his sawmill, and even the gardener with his plot of ground, share in the responsibility this week emphasizes. It is a week also of acquainting the city dweller with the role good land use plays in his life.

Without a doubt, both rural and urban dwellers have an interest in the use of our natural resources, particularly the soil. This interest goes beyond the present use of our land. It must take into consideration the demands that will be placed on the land by future generations, and the obligations that man has to those who will follow him.

After all, to whom does the land really belong? To you? To me? Isn't it a fact that it doesn't belong to any of us at all? Aren't we really just stewards of the land as well as everything we acquire in life?

We come into the world with nothing and leave it the same way. For we return to the land from whence we come, and what we leave behind us we leave to those who come after us.

Long Thrust, which will be conducted from April 24-May 20, is designed to test the capabilities for reinforcing NATO defenses with forces located in the U.S. Personnel from the division stationed at Fort Campbell, Ky., will be airlifted to Europe to participate in the exercise. The 101st, a major Strategic Army Corps unit, constantly maintains an immediate readiness force for airborne deployment to any area of the world.

Sgt. Moody is regularly assigned as a mess steward in the infantry's Company D. He entered the Army in June 1960 and completed basic training at Fort Knox, Ky.

The 28-year old soldier was graduated from Straughn High School, Andalusia, in 1959 and from Troy State College in 1960. He is a brother of Mrs. Leroy Lawford of Reese St., Elba.

This is why the care of the land becomes so important to us.

The farmer and rancher see their responsibility to the land through the day-to-day application of good land use practices.

When someone says, "Your Johnny's just like you," is it a compliment, or is it an accusation? Whether you like it or not, children do follow in their parents' footsteps.

Johnny learns that kindness and courtesy are virtues, because you are kind and courteous. He learns to love good books and music, because you love them. He learns, through your example, to speak truthfully.

And if going to church and church school regularly is also a part of your usual routine, Johnny will develop that habit just as he has these others.

Then it is a compliment when someone says, "Your Johnny's just like you," for you are doing all within your power to lead him in the right direction.

THE CHURCH FOR ALL

ALL FOR THE CHURCH
The Church is the greatest factor in the building of character and spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four main reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

WHAT HAPPENED TO MASTOID OPERATIONS?

Twenty years ago Mastoiditis, an inflammation of the mastoid bone cells located behind the ears, was responsible for many operations which left unsightly scars. Now, a prescription for a few dollars worth of medication, if taken in time, makes an operation unnecessary.

But, any pain about the ear should receive immediate medical attention. You save sickness time and perhaps even your life when you consult a physician.

The Thrifty HOUSEWIFE KNOWS SHE PROFITS FROM ADVERTISING!

She Has Found From Experience that she fares Better When She Buys From Those Stores Which Advertise Regularly in Newspapers!

The Wise MERCHANT KNOWS HE PROFITS FROM ADVERTISING!

No business has to advertise. An experienced ad man is the first to disagree with the oft-repeated statement that 'You have to advertise.' Because you don't. But the most successful merchants are those who advertise. Because they want to let their customers know about their latest values and they have no fear to let their competitors know the same as their customers.

There are definite rules how to use it and the first rule is to budget the advertising the same as to budget the rent, payroll, gas, lights and water. Regular advertising is the keynote. No longer is advertising for clearance sales only. Customers want to know about regular price line merchandise too.

And there must be some reason why there is more advertising done in newspapers than in any other media. In fact, there is as much advertising done in newspapers as in the next highest three media combined.

All advertising is good, some better than others!
